Subject: FW: GP Crossett Modeling

Hi Stacey,

Wanted to close the loop and make sure the message made it across from Bob.

Thanks.

Taim.

Subject: RE: GP Crossett Modeling

Taimur: Sorry I missed you, thanks for calling. We have decided that rather than the agencies spending time on modeling we are sending a letter to GP asking them to supplement their application with among other things, a demonstration, such as a reasonable "desk top" model or calculations, that the 001 Outfall is protective of the Ouachita River during flooded conditions.

I have a call into Stacey but she is meetings, we will probably talk Monday and I'll explain what we are doing.

Thanks Bob

Hi Bob,

Hope you are doing well. I left you a message yesterday and wanted to follow up with an email. Please let me know when you have time to discuss GP Crossett and the necessary modeling. I will be around all next week except Friday.

Thanks so much.

Taim.
